WINE EXPERIENCE HOTEL

RESPONSIBLE TOURIST MANIFESTO

Travel is KNOWING other ways of living, exist and be in the world. It is to UNDERSTAND that our planet is as finite as it is immense, that the human being is so identical and so different. It is to RESPECT this difference and live it, make it ours and PRESERVE its existence as it is. It's SHARE with those who are with us, with those who will soon leave and with those we know along our path. Because traveling is just that: LIVING.

BIOSPHERE
SUSTAINABLE LIFESTYLE

1. BE AWARE OF THE RISKS WHEN TRAVELING AND TAKE THE NECESSARY PRECAUTIONS.

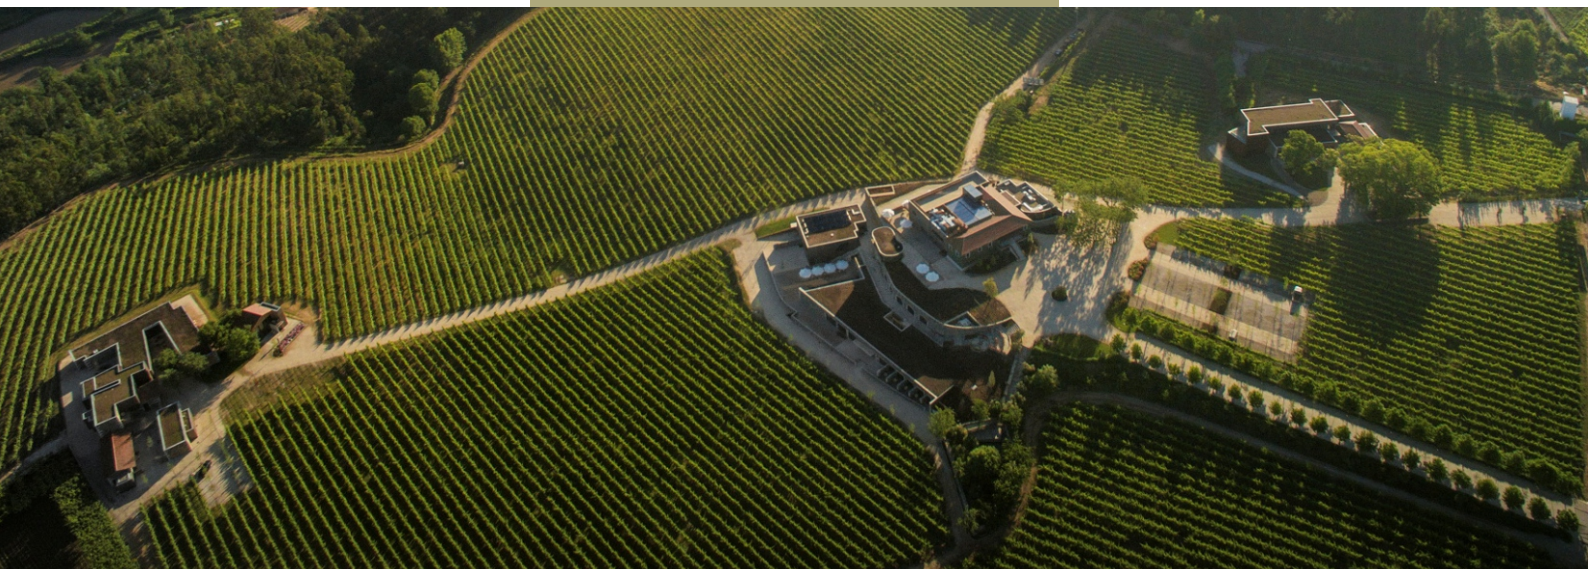

When planning your trip, make sure you know the characteristics of the destination you want to know and take the necessary measures to have up-to-date documentation, such as insurance and health data that may be requested. In addition, follow the recommendations of local authorities at all times, especially in case of an emergency. Check the composition of the products you consume to avoid any risk, especially those that may arise from allergic reactions or intolerances.

2. BOOST THE LOCAL DEVELOPMENT OF THE DESTINATION BY CONSUMING LOCAL PRODUCTS AND SERVICES.

Support local entrepreneurship by consuming products or services that are produced at the destination and whose direct and indirect benefits are shared across the board and favor the most vulnerable groups. In this way, whenever you consume any good or service, buy only those you really need and do so at a fair price so as not to destabilize the local economy or the living conditions of the owners or employees of local businesses.

3. LEARN AND SHARE ABOUT THE COMMUNITY THAT WELCOMES YOU, RESPECTING ITS VALUES AND TRADITIONS.

Learn, whenever possible, about the cultural aspects of the destination you visit (habits, gastronomy, languages or dialects, traditions, heritage). Make sure you know the social norms to avoid behavior that could be offensive or humiliating to the community that welcomes you. Likewise, become an example of tolerance by creating opportunities for mutual learning with locals and tourists, avoiding conflicting or unwanted situations.

4. GIVE YOUR CONTRIBUTION TO THE CONSERVATION, PROTECTION AND REGENERATION OF AQUATIC AND TERRESTRIAL ECOSYSTEMS OF DESTINATIONS.

Only enjoy products, services and experiences that guarantee the sustainable exploitation of the destination's aquatic and terrestrial resources and that respect the natural habitat of the native fauna and flora and beyond, avoiding the mistreatment of animals or destruction of the surroundings. Likewise, adopt a responsible behavior, avoiding the creation of waste and collaborate with the picking and cleaning programs carried out at the destination to avoid the deterioration of natural spaces and maintain biodiversity.

7. FAVOR THE SUSTAINABILITY OF THE HERITAGE AND INFRASTRUCTURES OF THE DESTINATION.

Pay special attention to recognizing how the destination is being managed and the infrastructure that composes it (buildings, transport, houses, public spaces, etc.) so that your visit does not imply a change in local life. In addition, give your contribution to the conservation of tourist attractions, respecting the rules and accesses designed for their preservation and protection.

8. CHOOSE PRODUCTS, SERVICES OR EXPERIENCES THAT ENHANCE THE SUSTAINABILITY OF THE DESTINATION THROUGH R+D+I

Give priority to products, services or experiences that incorporate new technologies and innovative methods that contribute to the sustainability of the destination through savings or better use of resources, information or communication skills.

10. JOIN THE RESPONSIBLE TOURIST MANIFEST AND SHARE IT.

Support initiatives and programs that encourage the exchange of experiences and good practices and that favor peace, actively participating in networks, associations, activities and alliances that promote sustainable development. Start by adhering to the Responsible Tourist Manifesto, carrying out the identified sustainable actions and sharing your commitment with others.

5. RESPECT DIVERSITY AND DO NOT SOURCE OR PARTICIPATE IN DISCRIMINATORY ACTIVITIES.

Favor the elimination of barriers that limit the integration of people for reasons of gender, origin, religion, sexual orientation, economic situation or other condition, avoiding sexist language, offensive comments or the use of negative stereotypes. Likewise, facilitate access to equal opportunities for those who have special needs in terms of mobility or communication, respecting the spaces or services intended for their use.

6. CONSUME RESPONSIBLY AND PARTICIPATE IN THE SUSTAINABLE MANAGEMENT OF RESOURCES.

Choose products, services or experiences that guarantee the intelligent and efficient management and use of water and energy resources, consuming those that generate the least impact on the destination and can be recyclable or reusable. Avoid excessive water consumption and opt, whenever possible, for transport with reduced or non-existent emissions. Also, calculate your carbon footprint and offset it as far as possible.

9. ENCOURAGE DIGNIFIED AND FAIR LABOR CONDITIONS WHICH RESPECT THE RIGHTS OF WORKERS.

Analyze and verify if the products or services you consume are produced under decent and fair working conditions that integrate the local population or those at risk of social exclusion and that prevent sexual or child exploitation, animal abuse, among others. Likewise, treat all workers with respect, both those at the companies in the destination you travel to and those in your own community.
